

At **CONTRALOAD** we offer a green logistical service to customers in over 26 countries. With our head office close to Antwerp (Belgium) and offices amongst others in the UK, Spain and Italy, we are the market leader for pooling of plastic pallets and containers in Europe.

For our Finance-team in Aartselaar, we are currently recruiting a competent and motivated

## Operational Controller

In this position you will work closely with the business controller in creating and maintaining reports in Tableau (= company's data visualization tool).

Your main focus will be on Revenue and Assets, for which you will work closely with our commercial departments in delivering relevant reports and insights.

Finally, you will get the opportunity to set up a controlling mechanism for the company's asset pool, which has grown to close to 1 Mio units. Hence, we are looking for an analytical person who will help us keep track of our pallets and containers, provide better reports both internally and to our customers, making Contraload even more professional.

### YOUR PROFILE

- Your motivation and ability to learn is more important than your years of experience. An initial work experience for instance as a business analyst/controller is a plus but not a must.
- Master in Applied Economics or Business Engineering or equivalent through experience.
- Strong Excel skills and an affinity for BI reporting tools and systems
- You are self-motivated with an open and strong personality with the strength of character to influence, convince and connect with business experts.
- Ability to translate common business sense into reporting needs.
- Language skills: Dutch and English.

### OUR OFFER

As our new Operational Controller you will have a permanent contract and a competitive remuneration package in line with your knowledge and experience.

You'll be part of a young and fast growing company with a multinational team. We take pride in our green service and encourage our employees to participate in our growth and help us co-define the path to success. With approx. 35 people working at the Belgian office, team-work is central and we offer a warm and relaxed atmosphere in our open-space office.

Interested? Send your CV and preferably your motivational letter to [jobs@contraload.com](mailto:jobs@contraload.com). We're looking forward to meeting you!
